

TESTIMONY IN GAS SUIT CONCLUDED

When Evidence Is Transcribed Counsel Will Prepare Their Arguments

LAST WEEK IN MARCH

Will Probably Be the Time That Judge Jewell Will Hear the Lawyers.

The case of the City of Newark vs. The Newark Natural Gas and Fuel company, which has been on trial before Judge Harry Jewell in Common Pleas court for the past two weeks, and has attracted a great deal of interest generally, closed Wednesday morning as far as the taking of testimony is concerned.

It was agreed upon by counsel with the consent of the court to allow time for the stenographer to transcribe the notes in the case after which counsel will prepare for the argument, which will be made both orally and by brief, and the court will come to Newark to hear these arguments, which will probably be the last week in March.

The testimony is not only voluminous, but is technical in the extreme, and deals with an almost inexhaustible mass of figures, which makes it necessary that the testimony be transcribed to be used by the lawyers in the preparation of their arguments.

The greater part of the time has been taken up by the examination of witnesses introduced by the gas company, who were either experts in gas matters generally, in the accounting departments, or the corporate organization.

The city contended that the ordinance passed by council some time ago fixing a net rate of 18 cents per 1,000 cubic feet, to be charged by the company was sufficient to return a reasonable profit on the investment, while the company pleads that the rate is unreasonable, ruinous and confiscatory.

The rate paid now, that has been collected since about the time of the passage of the ordinance, has been 22 1-2 cents net, and the difference between this and the 18 cent rate is paid to C. C. Metz, who was appointed by the court to receive this amount, and hold it until the rate question is settled, after which he will be ordered to pay the amount so collected to the gas company, or refund it to the consumers according as the court decides. There is now, it is understood, over \$60,000 in the receiver's hands.

The city has been represented by City Solicitor Roderic Jones, ex-Solicitor Frank A. Bolton, and Attorney Edward Kibler Sr., and these lawyers have labored indefatigably to marshal facts and details of the city's case, so that the evidence could be summed up in the strongest possible manner.

The gas company was also represented by the best of legal talent in Fitzgibbon & Montgomery of Newark, and Judge S. M. Douglass of Mansfield.

J. Hope Sutor, the expert accountant, who was on the stand Tuesday, was again called Wednesday morning and his cross-examination continued by Mr. Fitzgibbon. He was asked as to the receipts and expenditures of the Newark Gas company, from 1889 to 1898, which showed expenditures of \$273,615.41, which included \$22,640.00 declared as dividends, leaving over \$251,000 as a field investment. Against this the receipts for the same length of time amounted to over \$220,000.

From 1898 to 1902 the company sold gas for fuel and illumination amounting to \$184,000, and incurred expenses of \$107,500.

The books of the Newark company did not show what it cost the company to produce the above amount of gas or to buy it if it did not produce the gas, so that it could not be told from these books what the Newark company's profits were from 1889 to 1902.

The books of the company from 1898 to 1902 Mr. Sutor said were valueless as far as determining what, certainly anything as to what profits if any were made by the Newark company during those years.

HERRICK SENDS RESIGNATION TO PRESIDENT

Paris, March 5.—Myron T. Herrick, United States ambassador to France, following the usual custom of American diplomats abroad on a change of administration, has forwarded to President Wilson his resignation. No name has been definitely mentioned in connection with this post.

PRINCESS VICTORIA TO WED IN MAY.

It is announced that the marriage of Cumberland, will take place on May of Princess Victoria Louise, only 21. On that day the court will celebrate the silver wedding of Prince Ernest August, son of the Duke of Prussia.

WILL ACCEPT MEDIATION OF THE POWERS

London, March 5.—It was announced today that all the Balkan allies have individually accepted in principle the mediation of the European powers for the conclusion of peace with Turkey. Each of them emphasized the necessity for a consultation with the other nations forming the Balkan league before giving formal consent to the agreement.

GIBBONS IN NEW ORLEANS.
New Orleans, March 5.—Cardinal Gibbons has arrived in New Orleans for his annual visit with his brother, John T. Gibbons. Cardinal Gibbons came here for a rest of about ten days.

THIS FELLOW BET ON T. R.
Portland, Me., March 5.—Leading a 22-year-old donkey and wearing a khaki uniform, B. H. Anderson of Butler, Pa., left Portland to settle an election bet on Theodore Roosevelt by walking from this city to Portland, Ore.

GERMAN TORPEDO BOAT RAMMED AND 66 LIVES LOST WHEN VESSEL SINKS

Helgoland, Germany, March 5.—Sixty-six of the crew of the German torpedo boat S. 178, were drowned when the little vessel was rammed by the cruiser York in the North Sea last night. Among the dead are the commander of the torpedo boat, Lieut. Koch and his first officer. The surgeon and the engineer and 15 men of the crew were saved. The torpedo boat sank immediately. Torpedo boat destroyer S. 178, was one of the newest destroyers in the German fleet. Its displacement was 636 tons and carried a complement of 84 officers and men.

It was returning during the night from maneuvers in which it had participated with the German battleship fleet, the cruiser squadron and 64 other torpedo boat destroyers.

The destroyer attempted to pass through the intervals in the column of warships while the latter were steaming ahead at full speed. The commander of the S. 178, miscalculated the distance incorrectly and his boat was cut completely in halves by the cruiser York.

NEW CHAIR PLACED AT LONG TABLE

Will be Occupied by New Cabinet Member, Secretary of Labor

THE FIRST OFFICIAL ACT

Of President Wilson Was to Acknowledge Receipt of the Taft Cabinet Resignation.

Washington, March 5.—With the senate meeting at noon to confirm President Wilson's cabinet, the new chief executive held his first conference with his official family today.

A new chair was placed in position around the long table in the room in which the cabinets of the past have deliberated. This was intended for the occupancy of William B. Wilson of Pennsylvania as secretary of the new department of labor. Mr. Wilson stepped from a lost seat in the house to his new chair.

During the first few hours of the new administration, the president was officially, if not actually, surrounded by Republican advisers in the members of the retiring cabinet. They could not, under the law, lay down the burdens of their several offices until their successors had been confirmed.

President Wilson's first official act today was to acknowledge receipt of the resignations of the Taft cabinet and all the assistant secretaries of the various departments. Though the assistant secretaries will not detach themselves immediately, their places will soon be filled. The president sent his cabinet nominations to the senate today, but he will delay announcement of his assistant secretaries. Those who seek office from the new president will not be given audience by him. He announced today that he will confer only with those he sends for "Professional office seekers thus are barred."

Officials of the Taft administration, having sent President Wilson their resignations, prepared to leave Washington today. Carmi A. Thompson, treasurer of the United States, will return to his home in Ohio. Practically all will return to their former professions or else have accepted other offers.

President Wilson will reappoint Edward E. Clark of Iowa a member of the interstate commerce commission. Mr. Clark was reappointed by Mr. Taft, but the senate failed of confirmation.

President Wilson announced today that he had offered William F. McCombs, national chairman, an ambassadorship. His friends believe he will accept it.

John H. Marble of California, secretary of the interstate commerce commission and formerly its attorney, will be appointed a member of the commission, to succeed Franklin K. Lane, who becomes secretary of the interior.

After a brief session this afternoon the senate confirmed all the cabinet nominations and also that of Edward W. Clark, reappointed United States Commerce Commissioner. Mr. Marble's appointment was not confirmed.

GAIN IN LICENSE VOTE.
Montpelier, Vt., March 5.—A marked increase in the license vote was one of the features of the elections in the city and town of Vermont yesterday. Seven towns changed from a license to license, while only two places, including the small city of Vergennes, went from wet to dry.

WHAT IS IT?

A receptacle for holding water.
Answer to today's puzzle.—Haves

President's Room at the United States Capitol.

The photograph shows the president's room at the United States Capitol. The new president has announced that he intends to use the room for consultations with senators and representatives.

REP. ASHBROOK HONORED BY UNANIMOUS SELECTION FOR SECRETARY OF DEM. CAUCUS

Washington, March 5.—At the call of Representative Burleson of Texas, postmaster general, Democratic members of the new house of representatives assembled today in caucus to organize for the work of the coming session. This meeting brought out a marked change in personnel that took place yesterday. Among the new faces was Judge Warren Gard, who succeeded Gov. Cox of Ohio. The Democratic ways and

means committee is expected to be the same as that of the last congress with the exception of three retiring members. Stanley of Kentucky may be one of the new members. At the meeting held this afternoon Representative Palmer of Pennsylvania was elected chairman of the caucus and Representative William A. Ashbrook of Ohio, was re-elected secretary, his efficient work of the past being highly commended by many of his fellow members and he was tendered the honor of being the unanimous choice of the caucus.

RECEPTION FOR EX-PRES. TAFT AT AUGUSTA, GA.

Augusta, March 5.—A welcome as demonstrative as William Howard Taft ever received in Augusta while president-elect or president of the United States, was given today upon his arrival here. One thousand school children, each waving an American flag and cheering, 150 Richmond Academy cadets drawn up in military formation, and several hundred citizens, including the mayor and the members of the city council were at the station to greet the ex-president. Mr. Taft showed his appreciation of the reception and the Taft smile was much in evidence. "I am impatient to get at my golf sticks," said Mr. Taft, "and I am indeed glad of a chance to come to Augusta for a few weeks."

AIRMAN FALLS 5,000 FEET FROM HIS MONOPLANE

Salisbury Plain, England, March 5.—Geoffrey England, a British airman, fell 5,000 feet from his monoplane today while making a flight on the army flying ground here, and was instantly killed. He was demonstrating the machine with a view to selling it to the British government.

CANNOT TEST THE TUBERCULAR CURE

New York, March 5.—Dr. F. P. Esch, of Berlin, Germany, who has been in New York for several days, today announced that he cannot test the tubercular cure in New York because of the law which prohibits the use of such experiments in the city.

CHURCH BOARD WILL ENLARGE ITS BUILDING

The official board of the Tenth Street United Brethren church in regular session on last Monday evening, unanimously voted to enlarge its temporary tabernacle on North Tenth street in this city. This church was organized last July, a beautiful lot on the west side of Tenth street between West Fourth and Locust streets purchased and in August a temporary church 24x36 feet was erected and dedicated on September 1st, 1902. The organization started off with a membership of 45 and a Sabbath

PRIMARY REFORM IS FAVORED

House Passes Bill Providing for Presidential Preference

ALL STATE OFFICIALS

As Well as County and Municipal Officers Would Also Come Under Provisions of New Bill.

Columbus, O., March 5.—Ohio is to have an important change in its primary election system if the senate passes the Lowry bill which went through the House yesterday.

It provides for presidential preference primaries. Candidates for national delegates are to state first and second choice for president. Primaries for nomination of all state, district, county and municipal officers, except municipal officers in villages of less than 2,000 population, also are provided. Nominating conventions are done away with. The Lowry measure gives effect to a new constitutional amendment.

Bills not being debatable or amendable on third reading there was no way of correcting manifest errors in the measure. The Lowry bill contains an absurd provision that there shall be two separate primaries the last week in April of presidential years, a primary Saturday for presidential electors and a primary Tuesday for state, district and county officers and national delegates.

Under the new House rules the only thing it occurred to anyone to do was to trust to the wisdom of the Senate to extract the error.

For a short while yesterday the House was in the control of the Republican minority, which managed to defeat by one vote the Snyder bill, authorizing the attorney general to appoint special counsel in every county seat to represent the state in grand jury proceedings. Then, Democratic managers, greatly chagrined, rallied their forces. Representatives Warnes of Holmes, unofficial but actual leader of the majority, paced up and down the aisles, ranking Democrats back into line, the vote was reconsidered and the bill passed by a margin of eight votes.

The episode was made the more interesting by the fabrication by Representative Acker of Hocking of a new phrase, "If you fellows are afraid of being Tim Hoganized, I don't blame you for opposing the bill," he said.

Representative Capelle of Hamilton charged that \$18,000, spent last year for special counsel by the attorney general, was a raid on the treasury for no better reason than that the attorney general was of opposite politics than some prosecuting attorneys. Mr. Vanderhorst of Dayton said the sum spent for legal aid by the attorney general last year was \$90,000. Mr. Sweigert of Hamilton said if the bill had been law last year, Lawrence Maxwell would have been appointed special counsel and a distinguished citizen of Cincinnati would now be residing in Columbus. There was no opposition to the second Snyder bill, authorizing the attorney general to appoint special counsel to represent the state in trials.

Passage at yesterday's House session of 25 bills and the defeat of two bills opened the eyes of members for the first time to realization how the new rules have let down the bars for the easy passage of bills. The afternoon's performance demonstrated that a bill which passes the second reading stage is about sure of final passage. In practice a bill passes second reading by a majority of a quorum, and so in effect a bill is enacted into law by a majority of a quorum, whereas the constitution on rule is a majority of all the elected members. Bills passed yesterday had gone through second reading so long ago that careless members did not know what they contained and some of the amended bills had not come back from the printer.

LIPTON SENDS CHALLENGE FOR AMERICA'S CUP

London, March 5.—A challenge by the Royal Ulster Yacht club for a series of races for the American cup to take place in 1914 made on behalf of Sir Thomas Lipton, is on its way to America. It will reach New York on the Oceanic today or tomorrow. The challenge is for competition under the old rules.

Where a man used to paddle his own canoe, he now finds it necessary to hire a mechanic to run his motor boat.

GENTLY CLEANS YOUR LIVER AND TEN YARDS OF BOWELS

Delicious "Syrup of Figs" cleanses the stomach, liver and bowels of sour bile, gases, decaying food and clogged-up waste without gripe or nausea.

This wonderful fruit laxative acts as a liver and bowel cleanser—not as an irritant. Its action is natural and gentle—no gripping. It is delicious—no dreading. It is positive and prompt—no waiting.

If your stomach is sour and filled with vile gases, your head aches, or you are bilious, nervous, dizzy, half sick, your tongue coated, your thirty feet of bowels clogged with waste not properly carried off—don't wait! Surely take a teaspoonful of delicious Syrup of Figs tonight, and in the morning all congested waste, sour bile, gases and poisons will move on and out of the system, gently but thoroughly—no gripping, no nausea, no weakness. In the old days people for these matters ran until they needed a large dose of physic, but they took something severe, like castor oil, salts or cathartics, that meant abuse to the bowels. These are the days of the gentle and natural Syrup of Figs. This way you are not dragging your body. Syrup of Figs being composed entirely of delicious figs, senna and other natural ingredients, cannot cause injury.

Ask your druggist for "Syrup of Figs" and "Liver of Senna," and look for the name, California Fig Syrup Company, on the label. This is the genuine, reliable. Any other so-called Fig Syrup is an imitation, often meant to deceive you. Refuse such with confidence.

NEWARK MAN EXHIBITS PRIZE WINNING COACH

"KING DANIEL"
Prize Winning Coach Dog Owned by Amzi Westbrook of East Newark

Amzi Westbrook, grocer, E. Main street, has entered his fine coach dog, King Daniel, in the Pittsburgh bench show this week and will have the beautiful animal on exhibition at the bench show in Columbus next week. The Pittsburgh show lasts four days and is known to dog owners as a "three point" show. King Daniel has had a successful exhibition season, having already captured a number of firsts in various shows. The dog has been entered at numerous shows in the last few seasons and has always made a good record against keen competition. With six days and more points awarded, the dog will become a champion in his class.

LICKING.

The funeral of the late George Hughes took place from the church last Sunday morning. The attendance was not so large as it would have been had it not been so cold.

Dr. Newton, our former pastor, preached at this place last Sunday evening. He gave us as usual a grand talk, and hope we may be benefited by it. Two came out in this service.

Mrs. Charles Harter has been on the sick list the past week. However, she is better at this writing.

Mr. Dick Hughes from near Toboso, with his wife and little son, attended the funeral of his father at his place last Sunday. Also Mr. Hugh Gordley and brother and wife of Newark were in attendance, they being brothers of Mrs. Hughes.

Dr. Newton, wife and little daughter, Margaret, and Mrs. Sherman Rice, spent last Wednesday at the J. R. Black home.

Miss Sarah Jones is spending the week with her niece, Mrs. Otto Thorp. Mrs. Sanford Black is visiting relatives in Newark.

The Misses Viva and Maude Orr are spending the week near Jacksontown at the home of their uncle, Mr. Will Blade.

Mrs. Elmer Ealing and mother attended the funeral of Mrs. Camp near Granville last Friday.

Mrs. Ben Haynes is visiting at the home of her daughter, Mrs. George Richardson, near Granville.

Little Miss Nelly Albert, who has had a hard case of whooping cough, is convalescing.

Dr. and Mrs. Newton and little daughter spent Thursday night at the

ELKS ELECT OFFICERS FOR ENSUING YEAR

Also Held Initiation, Seven Candidates Being Given Work—Arrangement for Minstrel Parade.

The annual election of Newark R. P. O. E. Lodge, No. 391, was held Tuesday evening and it was one of the largest and most enthusiastic Elk meetings held for some time. The election resulted in the selection of the following officers, who will serve for the ensuing year, with the exception of trustees, whose term of office will be three years:

Exalted Ruler—Frank S. Nephew.
Esteemed Leading Knight—Jay Cooper.
Esteemed Lecturing Knight—Walter K. Daugherty.
Secretary—Robert L. Rhoades.
Treasurer—Warren T. Suter.
Tyler—Charles Allen.
Trustee—Wm. H. Broome.
Delegate to Grand Lodge—J. F. Cherry.
Alternate—George Graesser.
Delegates to State Reunion—Ed J. Maurath, Dr. H. H. Baker, Dr. Jud Lewis, D. C. Metz.
Alternates—George L. Warner, H. H. Shauk, Paul Collins, R. L. Rhoades, Walter Davis, W. B. Sargent.

The newly elected officers will be installed the first meeting night in April.

The election was followed by an initiation, at which seven new members were inducted into the order. They were L. G. Graham, Herbert Webber, Carl Jones, Henry Sheppard, Paul Sheppard, Merrill Risher and Allen Coffman.

A buffet luncheon was served under the direction of Stewards Charlie Livingston and William Hohl, both past masters in the gastronomic art and the most fastidious epicurean would have found much to praise in the excellence of the tempting viands. Three large Westphalia hams were used, cured under the personal supervision of William H. Broome. The luncheon consisted besides the hams, of many tempting things skillfully prepared in a most appetizing manner and it was greatly enjoyed by every one.

At last night's meeting arrangements were made for the big Elk minstrel parade to be given at noon on Thursday and Friday, March 27-28. All business men are requested to decorate on that occasion. The parade will be on a magnitude never before attempted by any Elk lodge in Central Ohio and will be well worth witnessing.

TO DARKEN GRAY HAIR

This Homemade Mixture Darkens Gray Hair and Makes it Soft and Glossy.

To a half pint of water add:

Bay Rum 1 oz.
Barley Compound a small box
Glycerine 1-4 oz.

These are all simple ingredients that you can buy from any druggist at very little cost and mix them yourself. Apply to the scalp once a day for two weeks, then once every other week until all the mixture is used. A fair trial should be enough to rid the head of gray hair. Kill the dangerous germ, it stops the hair from falling out, relieves itching and scalp diseases.

Although it is not a dye, it acts up on the hair roots and will darken, streaked, faded, gray hair in ten or fifteen days. It promotes the growth of hair and makes hair half soft and glossy.

HANOVER.

Miss Lorena Scott spent from Friday evening until Sunday with relatives in Zanesville.

Revival meeting closed at the M. E. church Saturday evening with two sessions to the church.

Mrs. T. E. Channel spent Saturday in Newark.

Mr. C. H. Forry spent last Tuesday in Columbus on business.

Mr. and Mrs. Wade Davis of Newark were Sunday guests of the latter's sister, Mrs. Wm. Loar.

Mrs. W. L. Yancy spent Friday in Newark.

Mrs. Albert Smith of Newark called on her uncle, Mr. Richard Proctor, Friday, who is quite ill.

Mr. J. S. Roberts had an auction sale Monday evening, March 2, he having come out of the store business.

Mr. Rolla Pound, an employee of the Hanover section, had the misfortune to meet with quite an accident, while at work last Tuesday afternoon. A nail hit him in the eye, striking his glasses and cutting his eye very badly. Dr. Evans had him taken to Columbus, where it was found necessary to remove the eye.

Mrs. Lorena Smith of near Newark, spent last Friday with friends of this place.

Ruth, the little son of Mr. and Mrs. Wm. Seaverson has been sick from eating colored candy.

Conveyance Evans has returned home from Colorado.

Mrs. Frank Nussbaum of Columbus is visiting at the home of Dr. and Mrs. W. L. Evans.

Dr. Evans attended the Licking County Medical meeting in Newark Friday.

NEEDMORE.

Mrs. George Blen spent Friday afternoon with her parents, Mr. and Mrs. G. W. Priest of Pleasant Valley.

Mr. and Mrs. Ira Martin and daughter, Edna, visited J. W. Martin and family Tuesday.

Mr. W. F. Varney, Mr. and Mrs. George Loan and son Charles and Mrs. Edith Martin attended here at Fallburg Saturday and Sunday.

Mrs. Lee Martin of Newark visited his parents here over Sunday.

George Blen spent Tuesday in Frazeysburg.

JACKSONTOWN.

Rev. Kenneth began a series of meetings at the M. E. church Sunday night.

Miss Betty Jones spent Saturday and Sunday at her home in Granville.

Miss Frances Tavenor was able to resume her school duties at the Brumback school on Monday, after being on the sick list for two weeks. Miss Helen Lewis taught the school during Miss Tavenor's illness.

Mr. and Mrs. T. C. Bury were called to Newark on Wednesday by the serious illness of the latter's sister, Mrs. Charles Moore.

Mrs. Frank Dally's spending a couple of days in Newark at the home of Mr. and Mrs. Bert Burch.

Miss Williametta Davis, the little daughter of Mr. and Mrs. W. V. Davis, who was operated on at Newark recently for throat trouble, has returned to her home quite recovered.

Mr. Fred Rofthus has returned after spending a week at his home in New York.

Miss Florence Egan entertained the members of the young people's Sunday school class and their friends at her home on Main street Friday night.

The Senior Class raised \$21 from its masquerade and social at the hall Saturday night.

Mr. and Mrs. L. C. Puffer and son Milton spent Saturday and Sunday with Mr. and Mrs. O. C. Harter of St. Louis.

Misses Maude and Viva Orr of Licking are spending the week with their cousin, Miss Grace Blade.

Mrs. Lettie Hoover has returned home after spending several months with her daughter, Mrs. Merle Plareuk of Freedom, Pa.

Mr. and Mrs. C. H. Reid and son Robert of National Road spent Sunday with Mr. Lennel Puffer and family of Atherton.

Mr. and Mrs. Day Jones are on the sick list.

Vern Price has purchased a new Ford automobile.

BOWLING

K. OF C. LEAGUE

The Talk of the City

"The Witching Food"

This new corn creation—hardly 30 days old—is already the talk of the city.

We call it Corn Puffs. But it goes by the name "The Witching Food"—the name which users gave it.

It is the inner part of white corn made into globules, then puffed.

It is tiny, toasted bubbles—airy, flaky, chocolate-colored puffs.

Crisp drops of corn, made to instantly melt into almond-flavored granules.

It is the daintiest breakfast dish you ever knew, and it took us ten years to perfect it. Try it while it's new.

KIHM GOES TO AKRON.

"Dummy" Kihm, former Newark first baseman, has signed to play with the Akron Interstate League team for the coming season. Kihm came to Newark with the Grand Rapids Central League team two years ago and was popular among the Newark fans for his conscientious work.

STATE DEFEATS WESLEYAN.

The Ohio State University basketball team defeated Ohio Wesleyan at Columbus last night by a score of 36 to 18. The game was one of the best of the season, although many were disappointed in the showing made by Wesleyan. In the early part of the game the two teams fought viciously for any advantage, but the contest slowed up before time was called. Coach Livingston and Player Rupp of Denison witnessed the game.

The average man thinks he knows all about women until he marries one.

THE MOTOR TRUCK AND THE FARMER.

"There are 67,000 fewer horses on Kansas farms than there were four years ago, 16,000 more motor cars and motor trucks, and 1000 more traction engines," writes Thaddeus

TAKE A TRIP TO JOYLAND.

That's what you may do if you get a copy of next Sunday's New York World. Its news will acquaint you with the happenings in all parts of the earth; its editorials will throw light upon the important questions of the day; its 8-page May Maton Fashion Supplement will picture and describe the newest things in gowns, etc.; its 24-page Magazine will entertain you for hours; its Joke Book, a 16-page booklet, will make you laugh until you forget the seriousness of life; its comic section will please and entertain. QUESTIONS AND ANSWERS

Who is the youngest justice of the United States supreme court?
Charles Evans Hughes.

Was the Great Eastern the first boat used in laying a cable across the Atlantic ocean?
No. The Niagara and Susquehanna American and the Leopard and Agamemnon (British) succeeded in completing a cable from Valentia, Ireland, to Newfoundland on Aug. 5, 1858. Messages were exchanged between the president and the queen. The insulation became defective, however, and that cable was abandoned.

How many presidents have been born in New York state?
Three—Van Buren at Kinderhook, Fillmore at Summerhill and Roosevelt in New York city.

What year did Woodrow Wilson become a member of the faculty of Princeton college?
In 1890. He succeeded the late Professor Alexander Johnson in the chair of jurisprudence and politics.

What president served the shortest term?
William Henry Harrison. He died one month after his inauguration in 1841.

Is it true that no New Yorker has ever served as president pro tempore of the senate?
John Lawrence, 1798-99, is the only New Yorker who ever served in that capacity.

Is Sheboygan in Wisconsin or Michigan?
Both states have cities of that name.

Who was secretary of the navy during Roosevelt's term as president?
There were six—John D. Long, William H. Moody, Paul Morton, Charles J. Bonaparte, Victor H. Metcalf and Truman Newberry.

Who was the first chief justice of the United States supreme court?
John Jay.

Is Admiral Dewey named among Andrew Carnegie's twenty-one great men?
No.

On what date was the Johnston flood?
May 31, 1880.

What is nepotism?
Patronage bestowed in consideration of relationship and not of merit.

In what states are marriage licenses necessary?
In all states and territories except Alaska, New Mexico and South Carolina.

Do any states prohibit the marriage of whites with Indians?
Yes. Such marriages are void in Arizona, North Carolina, Oregon and South Carolina.

Is it considered unlucky to be born on Friday?
Some people possess that superstition, but Presidents Washington, Madison, Monroe, Pierce and Hayes were born on Friday.

What are the dimensions of the Roosevelt dam and where is it located?
Two hundred and eighty-three feet eight inches high, 168 feet at the base and 20 feet at the crest, which extends 1,080 feet. It is situated in Arizona in one of the desert regions of the world. The water which it impounds reclaims 200,000 acres of land.

Has an Indian ever been president?
William Henry Harrison was eighth and Benjamin Harrison the tenth in descent from Pocahontas and John Rolfe.

Was John Wilkes Booth tried for the assassination of President Lincoln?
He was shot twelve days after the assassination by Sergeant Boston Corbett at Fredericksburg, Va.

What are the three climate zones?
Tropical, temperate and frigid.

Who was the man who bet he would not have his hair cut until a Democrat was inaugurated president, and when did he make the bet?
E. F. Boxwell of Holsington, Kan. is the individual. He made the bet in 1896.

What state pays to its governor the highest salary?
Illinois—\$12,000.

Women are Casting Ballots ALSO—SCHOOL CHILDREN

Judging by the number of ladies who are visiting our store this week, it would seem that they are taking much more interest in the Baby Contest than their husbands are in National Politics.

Of course, everyone who sees the Globe-Wernicke Bookcase to be awarded to the one offering the cleverest title to the picture displayed in our show window, immediately demands a ballot.

Remember, you do not have to be a customer of the store to win the prize; everyone, without reservation, man, woman or child, can submit an answer.

School children wishing to start a library in their school can get up a contest among themselves, and every member of the class submit a title.

It's a good tonic for one's imaginative power—

YOUR ROOM MIGHT WIN THE BOOKCASE

Why not appoint a committee, and secure the teacher's consent to compete for this prize to go in the Schoolroom?

TEACH YOUR DOLLARS TO HAVE MORE CENTS.

GEMS FROM ADDRESS
OF NEW PRESIDENT

The success of a party means
little except when the nation is
using that party for a large and
definite purpose.
Some old things with which we
had grown familiar, and which
had begun to creep into the very
habit of our thought and our
lives, have altered their aspect as
we have lately looked critically
upon them, with fresh, awakened
eyes; have dropped their dis-
guises, and shown themselves
alien and sinister.
We see that in many things
that life is very great. It is in-
comparably great in its mate-
rial aspects, it is great also, very
great, in its moral force.
Nowhere else in the world have
so noble men and women exhibited
in more striking forms the beauty
and the energy of sympathy and
helpfulness and counsel in their
efforts to rectify wrong, alleviate
suffering and set the weak in the
way of strength and hope.
The evil has come with the
good, and much fine gold has been
corroded. With riches has come
inexhaustible waste. We have
squandered a great part of what
we might have used, and have
not stopped to conserve the ex-
ceeding bounty of nature.—
Woodrow Wilson.

AMUSEMENTS

High School Minstrels.

The High School Troubadours pu on a minstrel show Tuesday after- noon and evening, for the benefit of the Athletic Association, which was a pronounced success financially. Credit to those who had charge of the affair and a veritable triumph for each individual who contributed his efforts to the general excellence of the entertainment.
The High school auditorium was crowded at both performances, the matinee being given especially for the pupils of the grade schools while in the evening the general public filled every seat and the "S. R. O." sign was in order.
The performance was generally in line with approved minstrel construction, consisting of a first part in which the entire company was on the stage, and was followed by specialties, comedy sketches and musical novelties.
It would be impossible to enter into a detailed review of the excel- lent work done by the performers, many of whom displayed a talent that seemed almost intuitive. It might, however, not be out of place to specialize on the cleverness dis- played by the six black-faced en- comedians, Howard Rugg, Harold Smucker, Fred Nehls, Ned Putnam, Forest Farmer and Clifford Sher- burne. Each one of these young men had a sang froid with which he discussed with the interlocutor, and the joke (in most cases new), was given in a manner that in itself was enough to raise the risibilities of the audience.
Eugene Wells did his part as in- terlocutor to the satisfaction of all and with great credit to himself. He seemed at all times to be master of the situation, and carried his com- edian along to the climax of each di- alogue with consummate skill.
The musical numbers of this part of the program were uniformly good and need only to be mentioned in this connection. They were as follows:
"Dear Old South." Ralph Laugh- lin.
"That's How I Need You." Lor- est Farmer.
"Indian Queen." Audrey Hall.
"When Uncle Joe Plays a Rag On His Old Banjo." Harold Smucker.
"That's Ho w I Neew You." Lor- ren Hansberger.
"On the Mississippi." Ned Put- nam.
"Dear Old Rose." Frank Graham.
"Hallaluluh Rag." Howard Rugg.
An Italian impersonation and di- alect recitation by Professor Keckley of the High school faculty, was es- pecially taking in the second part, while musical numbers by God- dard Chase, Donald Kissane, Arthur Streit, comedy sketches by Laughlin and Putnam, Farmer and Jackson and a skit entitled "The Haunted Hotel," with Howard Rugg, Eugene Wells and Ned Putnam, were given enthusiastic applause.
The choral singing of the com- pany was really high class and their appearance was commented upon, each member wearing full dress, with white carnation in the left lapel.
The orchestra deserves much praise, and, together with the chor- us, followed implicitly the baton of Professor Klopp.
It was indeed a most creditable showing and congratulations are due those who made it such. The fol- lowing is the executive staff:
Directors—Prof. Klopp and Prof. Keckley.
Business Manager—Forrest Far- mer.
Stage Manager—Eugene Wells.
Music Committee—Prof. Millison, Fred Nehls.

RE-ARRESTED ON SERIOUS CHARGE

Harry Allison and William Barr, charged in Mayor Swartz's court with assault, Pearl Ford being the alleged victim, were discharged from custody Wednesday afternoon, when the girl refused to testify against them. The boys were immediately re-arrested by Probation Officer Sheridan on a warrant from the ju- venile court charging them with contributing to the delinquency of a minor child. They were taken be- fore Juvenile Judge Hunter, who continued the case, placing them un- der bond in the sum of \$200 each. Attorneys for the defendants have asked for a jury trial.

"The Woman." This powerful dra- ma comes direct from Mr. Belasco's own theatre, the Republic, in New York City, with the proud record of an all-season run. It is confidently predicted that the play will prove one of the sensations of the drama- tic year, and as the general public appreciates fully the value of a Belasco offering, it is scarcely to be wondered at that the advance sale is the heaviest of the season in this city.

"The Woman" is liberal in its comedy element, though classed as a serious play, with many intense and gripping situations. The scene is laid in Washington, D. C., where the workings of present-day politics with their insistent tendencies, are shown. The value of the drama, however, lies in its romantic side, which is the real force and meaning of the story. The political aspect is used only as a means to work out the bigger theme, but it is interest- ing in its wide opportunities for quaint and sharp characterization, as well as for its picturesque value.
President Taft himself saw the initial performance of "The Wo- man" in Washington, and was en- thusiastic in his praise. Indeed, this was true of the entire audience, which was the most brilliant of the year in the capital of fashion and culture.

So do not miss "The Woman" while this extraordinary play is in Newark. Take the word of New York, where the play ran for nearly 250 nights, and of Chicago, where it played 150 nights. In both cities "The Woman" was the season's sen- sation.
The original Belasco cast is promised, including Marion Barney, Marjorie Wool, James Seely, How- ell Hansel, Austin Webb, Hugh Dill- man, Homer Thompson, Peter Ray- mond, Homer Granville, Kalman Ma- tus, Frank Austin and others. The engagement at the Auditorium the- atre is for one performance. Seats are now on sale.

"The Littlest Rebel." On Thursday, March 19, Al. H. Woods will present at the Audito- rium Marshall Farnum in a heart- story of the Civil War, "The Littlest Rebel." The story is simple. It is about a southern scout who risks his life to see his little hungry and motherless girl and in doing so was captured by Lieut. Col. Morrison of the northern army and later through the pleadings of his child is allowed to escape, only to be cap- tured later while fighting for an- swering the life of Col. Morrison. The two men are brought to headquar- ters and taken before a court mar- tial that sentences them to death one as a spy the other as a trait- or. They are saved through the little girl, who seeks Gen. Grant and tells him the story. An interest-

Thursday. Big sensational pictures for Sunday next, "Saved in Midair," a great picture, "Sheridan's Ride," a great war picture, will also be a feature in two reels.

"CHARLEY" SLEPT, THE RUG IGNITED, REESE OBJECTED

Attorney Charles W. Miller created some excitement this morning and in- cidentally, for an instant, had a num- ber of his friends frightened to an alarming extent and to a point, in- trinsically embarrassing, the few wor- riers of his imminent peril (it is a concerning nightmare).

Mr. Miller was sitting in his com- fortable office in the Flood-Zartman building in West Main street when the sensitive influence of Morpheus pervaded the cerebral chambers of his mental vision, and he fell asleep, still clinging to his perfect cigar.
Parasols of vivid light and comfort- able warmth soon developed into a phantasmagoria of fire and flames of con- suming fire, and the burning heat of an inferno. He awakened and what followed is a subject of controversy, so we can only give his version and that of his friend, Jud Reese, the insurance agent who was summoned soon after the incident.

Miller says that the hand-kerchief hanging on the office floor was lit when he awakened and he at- tributed the rarest presence of mind and most consummate skill and bravery he extinguished the flames and saved his own life, but the rug was ruined. Reese, who went around to adjust the loss, on the other hand insists that the rug is made of an asbestos com- position, and that to burn it would be an utter impossibility and waste of time, and that the attorney merely sought to get damages from him as a claim to his feelings, in the loss of a cheap cigar.

Attorney Link Russell was called upon to appraise the damages and he de- cided that the best way out of any dis- pute would be to assess the damages to the rug at nothing and his fee as appraiser at two bottles of Mumm's Ex- tra Dry, and the matter was settled on this basis.

OHIOAN CHOSEN PRESIDENT.

Chicago, March 5.—The National Paving Brick Manufacturers elected Charles E. Deckman of Cleveland, O., president at its ninth annual meeting held here. Resolutions were adopted urging laws requiring exam- inations for all engineers engaged in construction work.

The world's idea of a man who is doing well is not necessarily one who is doing good.

Strangely enough, the people who are most useful in life are not those who are used.

LOOK YOUNGER! DARKEN YOUR GRAY HAIR WITH SAGE TEA

Says Sage and Sulphur Will Stop Falling Hair and Cure Dandruff.

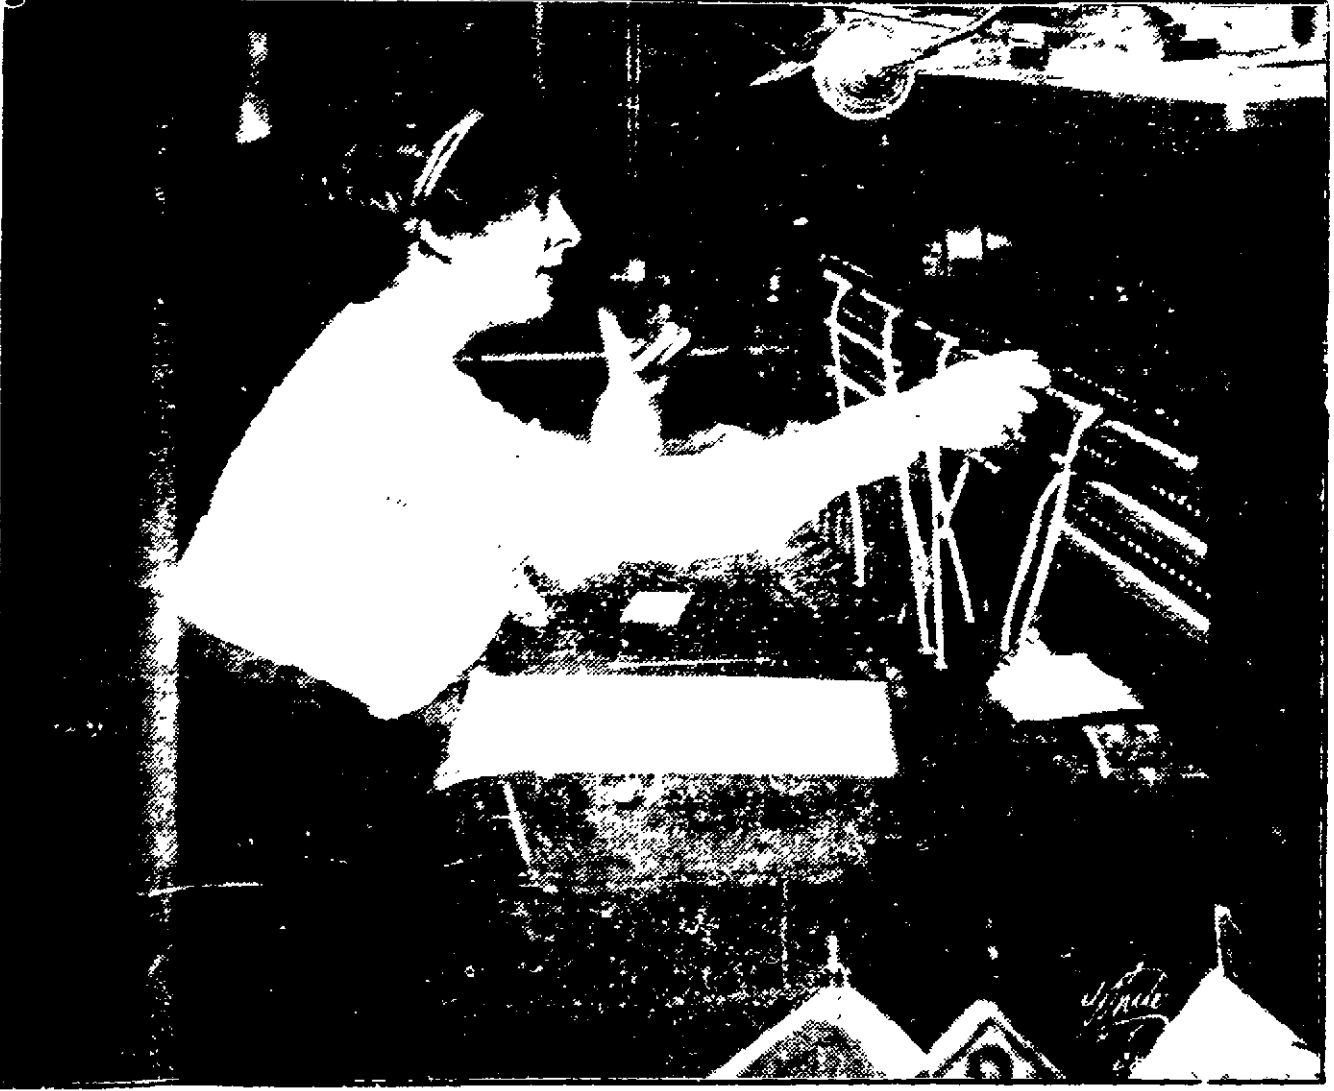

Common garden sage brewed into a heavy tea with sulphur and alco- hol added, then left to age and care- fully filtered will turn gray, streak- ed and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and fall- ing hair.

Just a few applications will prove a revelation if your hair is fading, gray or dry, scraggy and thin. Mix- ing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle at drug stores, known as "Wy- eth's" Sage and Sulphur Hair Rem-

edy," thus avoiding a lot of muss. Some druggists make their own, but it isn't nearly so nice as "Wyeth's."

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractive- ness. By darkening your hair with Wyeth's Sage and Sulphur no one can tell, because it does it so nat- urally, so evenly. You just dampen a sponge or soft brush and draw it through your hair, taking one small strand at a time. Do this tonight and by morning all gray hairs have disappeared, after another applica- tion or two it will be restored to its natural color and be even more glossy, soft and luxuriant than ever.

Local druggists say they are sell- ing lots of "Wyeth's Sage and Sul- phur" and it surely helps folks ap- pear years younger. Hall's Drug Store, 10 North Side Square, agent.

NEW DEMOCRACY'S NEW PRESIDENT

Woodrow Wilson becomes the President of the United States with more popular good-will behind him than any of his predecessors since George Washington.

No man has ever entered the Presidency with better qualifications for the office. He first attained distinction as the author of Congressional government. He was for many years a professor of jurisprudence. To this theoretical preparation for his present duties he adds the immense advantage of experience as Governor of New Jersey, where he has effected a political revolution.

His speeches before, during and since the campaign have proved that he more than any other man of the time understands the aspirations of the American people and shares them. He is as far removed from the demagogue on the one side as he is from the representative of a class on the other.

His addresses have repeatedly given evidence of the profound sense of responsibility with which he confronts his new duties. He comes into office at a time of very great unrest, when the people are conscious of the dawning of a new political day, when the opportunities of distinction for himself and of service to his country are beyond those of any other period since the civil war.

Socially, politically and economically, great changes are impending. The responsibilities and the opportunities of Woodrow Wilson are unprecedented. But it is well settled in the mind of the intelligent, thinking public that he stands for the uplift of humanity.

HOME COURSE IN SCIENTIFIC AGRICULTURE

SIXTH ARTICLE — HOME FRUIT GARDEN.

By L. C. CORBETT, Horticulturist, Bureau of Plant Industry, Department of Agriculture.

THE possibilities in fruit culture upon restricted areas have been very generally overlooked, with the result that many persons who own a city lot, a suburban home or even a farm now look upon fruit as a luxury. This can be changed, and much of the land which is now practically waste and entirely unremunerative can be made to produce fruits in sufficient quantity to give them a regular place in the family bill of fare and at the same time add greatly to the attractiveness of the table and healthfulness of the diet.

In order to prove a source of constant pleasure and gratification a fruit plantation must claim the attention of its owner from early spring to late autumn. Its products, too, must be so planned as to cover the greatest possible portion of the seasons between frosts. For a commercial place on an extensive scale it would be out of the question to attempt to alter the character of the soil to suit the needs of the plant, but with a small area the case is quite different. If the soil is heavy it can be lightened with sand, if it is not desirable to increase the proportion of humus which it contains. If it is lacking in organic matter the addition of leaf mold and well rotted manure or the turning under of some leguminous crop, such as cowpeas or

use of the plant. When the operation of transplanting is complete the plant should stand one or two inches deeper than it stood in the nursery.

In the case of the apple and the pear the fruits are borne upon "spurs" of the previous year's growth only, these spurs appearing on wood one year or more of age. Heading in or shortening each shoot of the season's growth, therefore, must be done with care in order not to reduce the bearing wood beyond a profitable limit. The bearing shoots are usually obscurely located upon the sides of the branches.

With the peach, however, it is the wood of the last season's growth upon which the fruits are directly borne, and with them heading in may be successfully employed to limit the quantity of fruit borne by the tree. Japanese plums bear on both year-old wood and spurs. Pruning may therefore be used to thin the fruit, the same as in the case of the peach.

The grape bears its fruit on shoots of the season, which in turn usually arise from canes of the previous year's growth. Old wood on the grape is therefore of little value; hence the development of so many systems of training which maintain only a single permanent trunk, from the top of which the bearing canes are renewed each year.

By planting the vines closely and carrying up single trunks to a fixed height and from the top of the stalk carrying out horizontal arms along which "spurs" are maintained a short growth from each spur will be sufficient to give a uniform and sufficiently dense canopy of leaves for the arbor.

Raspberries and blackberries both bear their fruits on short shoots which arise from canes of the previous season's growth.

In the case of the currant and gooseberry the fruits are produced on both old and new wood. The fruits appear as axillary growths from the shoot itself, and wood three years or more of age is unprofitable and should be cut away.

Strawberries are rarely produced in profitable quantities by plants more than one year old. Plants over two years of age should be rooted out to give room for new ones.

The interest of a fruit garden may be greatly enhanced by growing there in plants not adapted naturally to the climatic region in which the garden is located. The most hardy sort should be selected, in addition to which the fruiting shoots may be wrapped in matting, covered with straw, and the fruits thus successfully protected, or, if it seems desirable, temporary sheds may be built over the plants and these thatched with straw or fodder sufficiently to protect them from frost. Then, again, semi-hardy sorts may be tipped over by cutting the roots on one side, bending the branches close to the soil, pinning them down and then covering the whole plant with matting and earth or a straw thatch and earth.

The fact that trees can be grown as dwarfs as well as standards will enable one to utilize a space which had previously been considered unsuitable for the development of a tree. In proportion to size dwarf trees are more fruitful than standards, and they come into bearing sooner.

Dwarfing is accomplished by budding or grafting robust growers on slow growing stocks, and most tree fruits lend themselves to this treatment. Besides this method of modification, there are other methods quite as important to the owners of small areas. Standards may be grown as "bushes" or as "pyramids," thus making it possible to grow them much closer together. Pruning and training used in combination have shown the possibilities of restricting plants to the "espallier," "cordon" and other styles of training employed in growing fruits against walls. These methods not only allow plants to be grown more closely than is common in orchard practice, but they allow the grower to take advantage of locations and conditions under which trees could not develop normally.

Besides the advantage of dwarfing, grafting may be turned to good account to enable the owner of few trees to increase his sorts beyond the limits of the trees he possesses. There are single trees known which bear as many as 150 varieties of apples.

In addition to the advantages to be gained from restricting the growth of plants by training and dwarfing, some of the methods of training offer adaptations which allow of combining plants of various habits of growth to the advantage of the grower and with little or no disadvantage to the plants. To illustrate this, currants may be combined with grapes, apples with currants or raspberries, grapes and strawberries.

The advantages of these methods become apparent at once when the object is the most economical utilization of a limited land area.

Besides the special adaptations afforded by dwarfed trees and by special combinations of low growing and high growing plants, certain well known systems of pruning and training allow additional liberties to the skillful planter. The vine may be utilized as a cover for walks and drives or as a canopy over small outbuildings. A cozy summer veranda may be covered by grapevines, thus securing the double advantage of a cool, shady nook during summer and a supply of fruit in autumn.

Where there is more land at one's disposal there may be both a fruit garden and a vegetable garden.

For specific recommendations as to varieties of fruits adapted to the various fruit sections of the United States see farmers' bulletin No. 208, "Varieties of Fruits Recommended for Planting."

The HOME Building Association Co.

NEWARK, OHIO

THE COST OF MOVING

is an additional burden that is thrown onto the shoulders of the man who rents.

Nor is the mere cost of moving all there is involved, for it involves injury to furniture and often refurnishing to some extent.

There is an old saying that "three moves equal one fire," and it is close to truth.

The home owner escapes this burden.

Why not begin now to give serious attention to this matter of home ownership?

With the easy payment plan of loaning money at 6 per cent interest which this association offers, it is practical for every thrifty, energetic family to secure a home and pay for it without hardship.

We are always glad to explain or suggest plans for those who will call here.

4%
OLD HOME

That tremendous exodus of the Ex-s from the nation's capital certainly made the day a typical March Fourth.

Free Humanity will not be such a scare crow for the use of the Standpatters as Free Trade.

In a suit against the Thread Trust the Government might be bidding for the woman vote.

Mr. Bryan's speech on peace looks like a semi-official announcement of the foreign policy of the new administration.

PROGRAM IS OUTLINED FOR CONSTRUCTION WORK

We want many headless and in a hurry to be great.

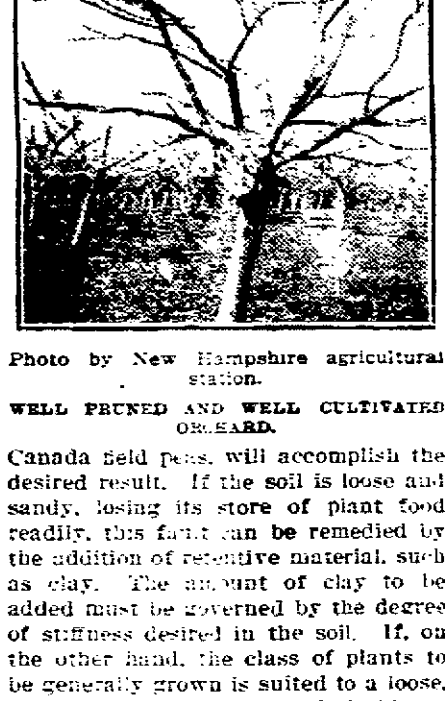

We have made up our minds to square every process of our nation with the standards of the world. We are going to set up at the summit and have down a road at our heels, our work is a work of restoration.

The first class of government is not perfect, not yet. These are matters of custom. There are no matters of opportunity, the first essential is custom. In the body politics of men and women and children are not shielded in their lives, their very vitality from the consequences of great industrial and social processes which they cannot alien, control, or simply live with.

We shall restore, not destroy. We shall deal with our economic system as it is and as it may be modified, not as it might be if we had a clean sheet of paper to write upon, and then we shall make it what it should be.

Why shall we go to the great trust who have laid out the sum of all honest wealth and make all forward-looking men to my side, that is, men who will not let it go? If they will let it go, and sustain me—Woodrow Wilson.

PROFESSOR SIMP.

Twelve million people attend moving picture shows daily in this country. This is said to be the main reason why the owners of moving picture parlors all own automobiles.

"How do you like Jack's new purchase?" I said to her, I said, and she says, I'm tickled to death with him.

HOME COURSE IN SCIENTIFIC AGRICULTURE

Photo by New Hampshire agricultural station.

WELL PRUNED AND WELL CULTIVATED ORCHARD.

Canada field pens, will accomplish the desired result. If the soil is loose and sandy, losing its store of plant food readily, this fact can be remedied by the addition of retentive material, such as clay. The amount of clay to be added must be governed by the degree of stiffness desired in the soil. If, on the other hand, the class of plants to be generally grown is suited to a loose, sandy soil and it seems desirable to add to the collection a plant, such as plum, which naturally requires a heavy, retentive soil, it would undoubtedly be better to change the character of the plant by grafting it upon a stock adapted to sandy soil conditions than to attempt to modify the soil to suit the plant.

Such modifications in plants are not always easily accomplished, and with many plants there is no alternate but to use them on their own roots. In this latter case the soil itself must be made to conform to the demands of the plants. The soil, in addition to being heavy and retentive, may also be cold and wet.

If the soil be mainly moist the only safe and satisfactory remedy lies in thorough underdrainage. This can be accomplished in two ways. Drains may be dug and a stone conduit built to allow the superfluous water to escape, or, what is better, agricultural tile may be laid in the bottom of the trench. If the soil is very stiff and retentive the tiles should not be laid over two and a half or three feet deep and about one apart. If the soil is porous the drains may be placed farther apart and run deeper.

At planting time all broken or decayed roots should be cut away, leaving only smooth cut surfaces and healthy wood to come in contact with the soil. A large part of the root area of the plant has been lost in transplanting the top should be cut back in proportion to the roots remaining.

The holes in which trees, vines or shrubs are to be set should be ample so that the roots of the plant may have full spread without bending them out of their natural course. The earth at the bottom of the holes should be loosened a space depth below the line of excavation. The soil placed immediately in contact with the roots of the newly set plant should be rich top soil, free from sod or partially decayed organic matter. Firm the soil over the roots by tramping, as this brings the soil particles together and at the same time in close contact with the surface of the roots. A movement of soil water is thus set up and the food supply of the soil brought immediately to the

THE NEW DEAL

The new administration will now administer the people of this nation will have to pay the freight. The president is hoping to see reforms begin, and many sorts are doing the president to win for he is wise and eager to help the toiling mass, which now subsists on meager soups and garden peas. He hopes for equal justice between the poor and rich, relief from laws that bust us, from grinding woes and sighs, for worthy compensation will now administer. Alas, the high ambition to ease the people's load, to better man's condition, must tread a rocky road! There's small enthusiasm when great reformers find that the people have a steam and turn stations, even if the statesman dining who'd have the heathen at the crowd around him swearing, and venturing their wrath. They say, "This fellow borrows the name of his boss." The names of our fathers are used and abused by the new many a verbal abuse, or perhaps it is the man, and so the sad reformer soon goes and is dead. There's his consolation for him who'd save the name. The new administration will now administer.

Canada field pens, will accomplish the desired result. If the soil is loose and sandy, losing its store of plant food readily, this fact can be remedied by the addition of retentive material, such as clay. The amount of clay to be added must be governed by the degree of stiffness desired in the soil. If, on the other hand, the class of plants to be generally grown is suited to a loose, sandy soil and it seems desirable to add to the collection a plant, such as plum, which naturally requires a heavy, retentive soil, it would undoubtedly be better to change the character of the plant by grafting it upon a stock adapted to sandy soil conditions than to attempt to modify the soil to suit the plant.

Such modifications in plants are not always easily accomplished, and with many plants there is no alternate but to use them on their own roots. In this latter case the soil itself must be made to conform to the demands of the plants. The soil, in addition to being heavy and retentive, may also be cold and wet.

If the soil be mainly moist the only safe and satisfactory remedy lies in thorough underdrainage. This can be accomplished in two ways. Drains may be dug and a stone conduit built to allow the superfluous water to escape, or, what is better, agricultural tile may be laid in the bottom of the trench. If the soil is very stiff and retentive the tiles should not be laid over two and a half or three feet deep and about one apart. If the soil is porous the drains may be placed farther apart and run deeper.

At planting time all broken or decayed roots should be cut away, leaving only smooth cut surfaces and healthy wood to come in contact with the soil. A large part of the root area of the plant has been lost in transplanting the top should be cut back in proportion to the roots remaining.

The holes in which trees, vines or shrubs are to be set should be ample so that the roots of the plant may have full spread without bending them out of their natural course. The earth at the bottom of the holes should be loosened a space depth below the line of excavation. The soil placed immediately in contact with the roots of the newly set plant should be rich top soil, free from sod or partially decayed organic matter. Firm the soil over the roots by tramping, as this brings the soil particles together and at the same time in close contact with the surface of the roots. A movement of soil water is thus set up and the food supply of the soil brought immediately to the

The Case Book of a Private Detective

True Narratives of Interesting Cases by a Former
Operative of the William J. Burns Detective Agency

By DAVID CORNELL

(Copyright by the International Press Bureau.)

A MATTER OF INTUITION

How the Brundage Novelty Company
Robbery Was Uncovered

At one time in the history of detective work, possibly, the sole function of the detective was to detect crime and criminals. This still is the function for which official detectives, those employed by city, state or nation, exist. But in this day of hectic business competition there has grown to startling proportions another use for the private detective agency; and the ways and means in which the public is learning to use and misuse the service which any detective agency places at their beck and call for \$8 a day, often have little or nothing in common with the original purposes of the detective's profession.

Probably one half the business that comes to the private detective agency is "business," instead of crime. Firms hire private detectives to spy on a competitor; employers hire them to look up the conduct of employees after business hours. There are private detective agencies so unscrupulous that they can engage their operatives for almost any service, no matter how low. Then, again, there is the Burns Agency, of which I was an operative, which will not touch a piece of business that is not obviously and absolutely square. But even pursuing this policy, without wavering, they are at times led into weird and wonderful paths of business mazes; and the work often is no less thrilling than the pursuit of vicious criminals.

The Brundage Novelty Company case was one of the most interesting jobs of any kind that I ever tackled.

On the first of September, 1910, our agency received a telephone call from the Knickerbocker Hotel. The call was: "Please pick out a man whom you know you can trust in every way and send him up here to room L 98."

The caller refused to give his name or to mention the purpose for which he wanted a detective.

"I'll explain all that satisfactorily to you after I have seen whether you have a man whom I consider capable of handling my business," was his answer to the office manager's request for more information.

"That's a queer one," muttered the manager, and he took the call in to the chief.

"Better send Cornell up there to see what it is," said the chief. "We won't touch it if it doesn't look good."

I at once took the subway to Times Square, and a few minutes later I knocked at room L 98. The door was opened by an old man of patriarchal appearance, one in whom the dreamer and the man of efficiency seemed strangely combined. He peered at me for possibly 30 seconds through the six inches of opening he had made.

"Come in," he said. After he had shut and locked the door he added: "You're from the Burns Agency, of course. Sit down."

I sat. The old man stood before me with his hands on his hips. Usually it is the detective who stands and scrutinizes and analyzes his client, but in this case the usual order was reversed.

"How old are you?" said the old man presently.

"Thirty-six," I replied.

"Married?"

"Yes."

"Children?"

"Three."

"Got a picture of your wife or any of the children with you?"

I looked at him and began to smile.

"Now look here, sir," I said; "so far as I understand it, you sent for a detective—"

"Young man," said he, holding up his hand in great dignity, "do not be impatient, please. Please answer my questions—Call it humoring an old man, if you will. There is a reason. Now, again, have you a picture of your wife or children with you? Do you carry one?"

More out of curiosity to see what he was driving at than anything else, I replied that I did carry such a picture, and opening my watch showed him the tiny picture of my little family that was pasted on the inside of the case.

"Good," said he. "Do you carry any life insurance?"

"You old shark!" I said, laughing.

"So that's what you got me up here for? Well, that's certainly a new dodge for an insurance agent."

"Young man, young man—don't, please," said he. "Answer my question, if you please."

"Yes," I said. "I do."

"Good!" Then he drew a chair up before me, and sat down, rubbing his hands.

"I must have a decent man, a fairly good man, a man I can believe in to handle this business," said he. "That is why I asked those apparently foolish questions. A married man is more dependable than a single one; a man who thinks a lot of his family is more dependable of all—for my purpose. And a man who thinks a lot of his family will often carry a picture around with him, and carry life insurance for their benefit. Now do you understand me? That is my way

of finding out if I want to trust a man."

"Well," said I, "I believe I have been fortunate enough to find such a man at my first try. I believe I can trust you. My name is Ezra Brundage."

"At first the name conveyed nothing to me."

"Inventor of the Brundage novelties," he continued, "and president of the Brundage Novelty Company, of Hoboken."

"What is it that you want me to do, Mr. Brundage?" I asked.

"I want you," said he, "to satisfy me that the Brundage Novelty Company is not being robbed."

Then he went on to explain. It seems that he had no definite reason for being suspicious. He said it was only his intuition that told him all was not right in the company. He said that a sense of wrong-doing on the part of someone in the office had impressed him several weeks before; that the impression had grown until he had begun to investigate, and though he could find no signs, he now was fully convinced that the company—and therefore himself—was being robbed.

"Intuition entirely, Mr. Cornell," he said. "But all my life I have listened to my intuition, even in my business dealings, and I find that it guards me better than anything else I know."

"Whom do you suspect?" I said bluntly.

"Mr. Cornell, I am in partnership with a young man named Gerber."

"And he's the man, is he?"

He bowed. "I am afraid so, though I dislike to say it. Mr. Gerber is a young man, and hitherto I have thought him the soul of honor—one whom it was a privilege and pleasure to associate with."

"And how do you think he's getting away with the loot?"

He thought it over for a few seconds and said slowly: "I do not know. That is what I want you to find out. He is our treasurer, and so has charge of all the finances of the firm."

"Well," said I, "are there any details you can give me? Any pointers?"

"None," he said. "But I have this suggestion to make; that you go to work in our office as a clerk where you will have opportunities for close observation."

"To watch you partner, Gerber?"

"To watch Mr. Gerber. I place the case in your hands; watch Mr. Gerber."

Back to the office I went to report to the chief.

"I thought you would find sort of a queer bird from the way he phoned," said the chief. "But business is business; he's retained us for the job, and your job is to watch Gerber. However, don't be so slow as to merely follow his suggestion about going to work in the office. Beat the old man to it; look up Gerber—after hours. You'll get more there, probably, than you would in the office."

Under these instructions I went over to Hoboken at once with another man to get a "spot" on Gerber, who was unknown to me. "Getting a spot" on a man in detective parlance signifies this process: one detective enters an office or place of business and asks for the man that is wanted. Meeting him, he makes some excuse and gets away. At the door of the place he waits for the man to come out. Across the street is another detective. When the man who is to be shadowed comes out the first detective signals to the man across the street in some unobtrusive way, and drops out. In this case Cluffer, the man who went with me, entered the offices of the Brundage Novelty Company and asked for Mr. Gerber. Having met him Cluffer merely applied for a position—and was turned down. When Gerber came out at 5 in the afternoon Cluffer, standing near the office entrance, took a paper from his pocket and began to read it—the signal we had agreed upon. Then Cluffer went back to New York, and I, whom Gerber had never seen, took up the trail. In this way all chance for suspicion on the part of the subject is eliminated.

For the next three days we "took him up in the morning and put him to bed at night." That is, from the moment when he left his house in the morning to when he retired for the night, Gerber never was out of sight of a detective.

By day, in the office, I had him under my eye, having gone to work there as a clerk. Outside of the office another man from the agency watched him, no matter where he went. Gerber didn't have a chance to make a move that wasn't reported on.

But nothing developed in this time, and I went to the chief and reported my belief that old Brundage was half cracked and that his suspicion was nothing more or less than a hallucination, a brainstorm, to put in bluntly.

"Well, don't let that worry you," said the good natured chief. "Brundage is paying the bill. He's good for it, and there's nothing more import-

ant on hand for you just at present. And, say, Cornell, don't you fool your- self too much about that old fellow having a brainstorm. He's a pretty wise old bird. Any man who can invent the scores of little things that he's put on the market, and run a successful business at the same time, is no fool, let me tell you. The thing may develop into a freak case, but believe me, old Brundage has some real reason for incurring our bill."

The fifth day of the case a roughly dressed young man came in to see Gerber. Gerber took him into his private office and closed the door, so it was impossible for me to see or hear what went on between them. But the fact that such secrecy had been observed put me on my guard, and when the young fellow came out I managed to have something to do that brought me near to him. It seems ridiculous, possibly to the layman, to mention as the starting point in an exciting case a whiff of an odor, but such was the real starting point of the Brundage Novelty Company case from my standpoint.

I caught the odor of gasoline from this young man as he swept out of Gerber's private office.

Of course the thing meant nothing at the time. It suggested nothing. The only situation opened by it was this: Gerber had some dealings of a private nature with a young man who smelled of gasoline.

At the same time, it opened up another possible clue for us to work on, for in our previous investigation we had not found Gerber in any dealings with anybody who smelled of gasoline or who might have occasion to use that fluid. As our task was to investigate all angles of Gerber's career, with a view to finding something to substantiate old Brundage's indefinite suspicions, the young man with the gasoline odor promptly became an interesting factor.

Across the street was one of our men, waiting. When the gasoline man

on the young man who had been in so long.

"He's the engineer of a fifty foot gasoline launch, the one that is lying in the Hudson opposite Forty-second street," Dawson reported. "The boat's owner is said to be a Mr. Russell."

"Said to be?"

"Yes; because I was around and wormed out a description of this 'Russell' from a lot of fellows hanging around the docks, and comes pretty close to looking like Gerber. If these fellows were lying so far as any case was concerned, but when I made enquiries at the office to find out if Gerber was for motor-boating, and found he expressed himself as having no interest in the water, the thing began to look as if there might be something in it. If the boat, the Nadine, belonged to Gerber, he was keeping it secret; and if he had secrets to keep, he might be connected with Brundage's suspicions of something wrong in the firm."

Strange to say, as I continued to watch Gerber, I too began to acquire a suspicious feeling toward him, just as the senior partner had done. There was no tangible reason why this should be so. His actions apparently were what they should be. But there was something wrong with the man. That is as well as being able to explain it. I wasn't right. I have felt this intuition—this "hunch" in detective parlance—several times in my career; and the experiences have convinced me that the detection of crime could be made an exact, a logical science, that each and every guilty person carries about with him certain signs—or possibly an air—which distinguishes him from the normal being. For guilt of a crime of any sort, after all, is an abnormality.

Gerber, in his office, and in his life after business hours, apparently went along as an honest man in his position should. But the more I studied

and he makes me tell everybody that the boat is owned by a chap named Russell. Now, what would he be doing that for? I—"

He shut up suddenly then, realizing in drunken fashion that he had gone too far.

After Dawson had made this report he went off the case, being called in to the New York office. For the next week, or until September 25th, I worked on Gerber in every way I knew how, without finding a thing. On the 25th he failed to show up at the office. A telephone call to his house elicited the fact that he had left at about midnight and had not returned.

I had a hunch on the instant, and calling a taxi drove to the place where the Nadine had been docked. The slip was empty, the boat was gone. From men around the docks I found that the boat had disappeared in the night without being seen, that nobody had known it was going, and that nobody knew where it had gone.

I went back to the office and told Brundage all I knew.

"Hm!" said he, and together we went to the safe. Brundage tried to open it, he and Gerber having had the combination together. He failed. For half an hour he tried, and then he gave up and telephoned for an expert from the safe company.

When the safe finally was opened the books were placed at once in the hands of an expert accountant. He found the discrepancy within half an hour.

"It is one of the clumsiest cases of juggling I ever saw," he said. "As near as I can tell on this short examination, the cash is \$15,000 short. Apparently it has been short for a long time, because I see that the juggling of figures has been going on for months."

"Hm," said Brundage. "For months, eh? I was slow. Mr. Cornell, your task is simplified now; you have only to find Mr. Gerber."

Yes, that was all, but that was

description was on the Hudson. The Nadine had disappeared.

I went back to the slip in Hoboken and began to work among the gang- ers on along the docks. The Nadine had been under their eyes constantly, and finally one of them let drop the remark that put me on the scent.

"Wherever she went, she didn't go far," said this man. "They didn't have gasoline in her enough to run five miles, and there was no chance to get any when they slipped out at night."

If this was true the Nadine must have put in at some nearby dock to purchase gasoline if she intended to make a long trip. So far as we could find, she had not done this. There was a chance that the boat still was in the vicinity.

Working on this chance we began to search the nearby boardways. On the second day we found her. She was up high and dry, having her keel repaired, under the name of the Gull.

But for the waterman who had observed the depletion of her fuel supply till it rotted before we noticed it, for the work of disguising her had been well done, and a boat on the blocks in dry-dock is of different appearance than a boat in the water.

I was forced to smile in admiration of Gerber when I found the Nadine. He had fooled us, and fooled us artistically. We had thought it a certain thing that he had flown away up o' down the river. He had worked artistically to this end. But he had done nothing of the sort. All he had done—as I discovered—when I located the engineer—was to telephone the latter to take the Nadine out at night and lay her up for repairs in the boatyard. Then he, Gerber, had flit off elsewhere, leaving us to chase away on his false, watery tracks. It was well done. It was better done than most crooked pieces of work. But like all crooks he had not stopped to consider the absolute certainty of being caught when there is plenty of money willing to be spent to effect a capture.

"Get him," directed Brundage. "I don't care how high the bills run; get that man."

After that it was only a question of time.

How is the net woven with such certainty around the hiding criminal? In Gerber's case, ten days after his defalcation was discovered, 10,000 circulars, containing his description and history and two cuts of him, were in the hands of as many trained men in all parts of the country. A thousand men, in all the large ports of the world, had these circulars three weeks later.

Gerber was not caught, however, until after three months had elapsed. Then one of his intimate friends—whom I was watching as the first person Gerber would be likely to communicate with—received a letter postmarked New Orleans, and addressed in a disguised hand. I had possession of the letter before the friend ever saw it—through a secret arrangement with the postal authorities. I opened it—and it was from Gerber. Copying the letter, word by word, I sealed it again, and sent it along to its destination. But before he ever received the letter I was on my way to New Orleans. I went straight to the general delivery window at the post office and waited. Gerber had directed his mail to be sent there. I got him that night. He came in with his hat over his eyes, and asked for a letter. When he turned away from the window I was standing before him.

"Hello, Gerber," I said. "I came down to bring you back to Hoboken."

He stood dumb for ten seconds. Then he blurted: "How in—did you ever do it? Haven't been out of my room in daylight since I came here."

"Oh, well," I said, "you come back like a nice boy and I'll tell you all about it on the train."

Brundage didn't prosecute Gerber. He said, "Fifteen thousand dollars is a big sum to lose. But it would be harder for me had I lost faith in my sense of intuition."

The Captain of His Soul.

Nearly blind, partly paralyzed and wholly helpless, Gen. Homer Lea, recently in command of the victorious Chinese revolutionary army, is reported to be returning to the United States. His ailments are not of recent origin. As a young man Homer Lea was frail and undersized.

Those who saw this lad a few years ago drinking companies of Chinese with broomsticks for rifles only laughed at the grotesque sight. But he refused to recognize his limitations. The driving force within him urged him on and made him brave for all deficiencies. So through the force of an indomitable personality he conquered more of life than is usually given to even the handsomely endowed man of fine physique.

Stone walls do not prison him, nor iron bars a cage. Neither does physical frailty bar a person from achievement. Milton did his greatest work after he had become blind. Beethoven was deaf when he wrote the famous Ninth Symphony. Spencer did his work in spite of chronic invalidism. Stevenson wrote under sentence of exile to the South seas. The deaf, dumb and blind Helen Keller has made her life count.

Henry was right. A man is the master of his fate and the captain of his soul—if he will only take command.

Going Up.

"Would you vote for a man who offered you money?"

"I should say not," replied the sitting member of the legislature. "The days for that kind of transaction are past. A man who wants to clinch my influence has got to have a good business and slip me an interest in it."

CONGRESS MAY BE TASK FOR WILSON

National Legislators Hard to
Manage.

WORSE THAN STATE BODY.

Cleveland's Administration Is Example. Majority in Each House Was Against That President—New Executive May Have to Depend on Progressives of Other Side to Aid Him.

By ARTHUR W. DUNN.

Washington, March 5.—[Special.]—

President Wilson may not realize that a national congress is much more difficult to manage than a state legislature, but such is the fact. The new president may not realize that party discipline does not sit well on Democrats, but he need only look back to the last Democratic administration to find that Grover Cleveland found that a majority of his party in each house were inclined to be against him.

Of course conditions now are much different. The president represents a progressive spirit which prevails throughout the country and which most members of both houses belonging to his party profess to follow. Consequently there may not be any rupture, and the policies of the president may receive endorsement.

May Rely on Progressives.

Just as President Cleveland relied upon Republicans to pass his silver repeal bill, President Wilson may rely on Republicans of progressive tendencies to sustain most of his progressive policies. There may be a little break here and there.

For instance, I do not expect to see the men from the wheat producing states of the northwest falling over themselves in favor of the proposed reduction of duty on agricultural products, but the tariff is but a small matter among the very many which President Wilson will try to have enacted during the early years of his administration.

Learning Their Way.

For a week before the last congress ended the new senators and new members of the house came to Washington to learn their way, not only about the corridors and byways of the capitol, but more particularly about the ways of doing things in congress. These new members want to be useful in the coming congress.

Nelson's Discovery.

During the crowded hours of the session just closed they were loading Senator Nelson's river and harbor bill down with all kinds of amendments, and finally Senator Owen of Oklahoma presented one which was contrary to the constitution.

"I make the point of order," exclaimed Senator Nelson. "You can do most anything on a river and harbor bill, but I do not think you can amend the constitution of the United States on it."

Funeral Poetry.

Who digs up all the funeral poetry that is used in the addresses on dead members? Every day available for the purpose has been used to eulogize dead members, and the draft upon the funeral poetry has been something astonishing. There must be a regular funeral poet attached to congress somewhere.

Right to Lecture.

Speaking of the late Senator Tamm, Champ Clark had this to say about men who invaded the lecture platform: "They are rendering a valuable public service while eking out their meager salaries. If a public man has a message to deliver it is his inalienable right to do so. It is easy for a millionaire editor to sneer at a public man rich in heart and brain, but poor in purse and of independent spirit, who desires to earn enough money honestly to provide for those dependent upon him, but decent and sensible people will all applaud him instead of criticizing."

Georgia Economists.

Congressman Roddenberry and Congressman Tamm, both of Georgia, made records during the closing hours of congress as economists—that is, they fought appropriation bills which were passed. In the senate Hoke Smith took a hand in the economy game and seemed to do pretty effective work, more particularly in pruning the public building bill. And even so, it appears that appropriations have been greater than ever before despite the efforts of the economists.

Penrose Was Earnest.

Senator Penrose did not get much further than the "point of order stage" with his amendment to pension old clerks by granting them unlimited leave of absence. It was of little avail that he showed that there were some 1,400 useless clerks in the postal service who were too old to do any work, but who were kept on the rolls on account of the unwillingness of heads of departments to discharge them.

The senate would not do anything that looked like a cut in the Pennsylvania senator will try it again when appropriation bills are considered.

Attentive Members.

There was one occasion when the house was in order. When Congressman Rucker of Missouri explained the distribution of insurance tickets the house was more attentive than at any time during the Sixty-second congress.

left the building I gave Dawson the signal to follow him. My man picked up the trail like a hound, and well satisfied that the mysterious young man would be followed to his destination, I turned back to my pretended occupation.

Mind, all this work was being done without any sane or definite reason for doing it. We didn't know whether Gerber was guilty of anything, or if he was guilty, of what it might be. We were working for Brundage, who had a suspicion, and so long as he paid the bill, and we had nothing more important to do, we would continue on the job.

I suggested to Mr. Brundage that he examine the books of the company for indications of anything wrong.

"I had thought of that long ago," said he. "But Mr. Gerber has all the books in his personal charge. He locks them up every evening. To secure them for an investigation it would be necessary to make a demand upon Mr. Gerber, and this naturally would arouse his suspicion. No, we will go on as we have begun. I am satisfied. If anything is wrong it will be shown, for Mr. Gerber is not permitted to remove the books from this office."

That evening I got Dawson's report

SHOE COMPANY WILL OPERATE INDEPENDENTLY

Newly Incorporated Midland Shoe Company Enjoys Splendid Business With New Line.

The New Midland Shoe Co., incorporated several days ago for \$150,000, with a factory in West Newark, is pleased with prospects for a year's business under the new organization. The newly incorporated company separates the Newark factory of the G. Edwin Smith Shoe Company, with headquarters in Columbus, and in future the Newark factory will be operated independently of the Columbus concern.

New samples were made up several weeks ago, and last week salesmen were started on the road. The first two days' sales amounted to 1500 dozen pairs, valued at \$300,000. This is regarded as a record for a new concern.

Local stockholders of the new company are H. D. Doane, C. F. Hoover and Gus Weigand. The stock of the company is all sold and the company continues to receive orders as they have during the past few days. It will mean that the factory will have to turn out 1200 to 1500 pairs of shoes per day.

The factory was established in Newark about three years ago, and shortly afterward the present factory was built and occupied by the company. It has proven one of the substantial concerns recently acquired by Newark's industrial family, and promises to grow rapidly.

HOSPITAL PHYSICIANS APPOINTED

The executive committee of the Newark Hospital Association met in the Board of Trade room Monday evening. Mrs. J. R. Davies and Mrs. H. D. Woodbridge were present for the Board of Managers and Mr. S. F. Van Voorhis, Mr. W. D. Prout and Mr. H. D. Woodbridge for the trustees.

This committee appointed the following physicians to serve on the medical staff for the coming year: Chief of Staff—Dr. W. S. Turner. Surgeons—Drs. C. H. Stinson, J. A. Mitchell, F. K. Essington, W. H. Knauss, H. J. Davis.

Visiting Physicians—Dr. W. C. Rank, W. B. Nye, H. H. Postle, J. T. Harbottle, J. P. H. Stedem, J. W. Barker, George N. Brown.

Consulting Physicians—Drs. Carl Evans, H. D. Rank, J. N. Wright, E. Hunt, J. P. Latimer, S. D. McClure, C. J. Loveless.

Children's Physician and Surgeon—Dr. W. J. Kennedy; Eye, Ear, Nose and Throat, Drs. C. B. Hatch, C. D. Morse, D. J. Price.

SAVED HIS SON

From Constitutional Decline.

So many cases like this are coming to our attention for the benefit of fathers and mothers of weak, sickly, ailing children in this vicinity we publish the following letter:—Mr. Richard Rush of Columbus, Ind., says: "I believe I am indebted to the valuable medicinal properties of Vinol for the health of my little son Dale. He had a severe attack of whooping cough and measles, which affected his lungs and general constitution. We tried several other remedies without benefit, then commenced using Vinol and I take pleasure in acknowledging my confidence in its restorative and reconstructive virtues, for my little son is the picture of health now, all due to the use of Vinol."

This is because the child needed the strengthening cod liver elements and the tonic iron that Vinol contains. No oil, delicious taste. We give back your money if Vinol does not do all we claim. Frank D. Hall, druggist, Newark, O.

P. S. For rough, scaly skin, try our Saxo Salve. We guarantee it.

SCALP IRRITATION STOPS: When Mrs. Mason's Old English Shampoo Cream is used. It insures healthy scalps and abundant hair. 25c.

OBITUARY

MRS. CHARLES J. GRAEF.

Mrs. Bertha J. Graef, aged 46 years, wife of Charles J. Graef, died Wednesday morning about 4 o'clock at the Graef home, 17 East Locust street, after an illness lasting since May, 1912. Her death was not unexpected, as her condition has been quite serious for several weeks. On Tuesday she suffered a sinking spell and it was feared that the end was near. Death came as a welcome relief to Mrs. Graef's intense suffering, which she endured patiently for several months.

The deceased was born in Connecticut Sept. 2, 1866, and was the daughter of Mr. and Mrs. Gottlieb Keinath. When still a young girl she moved with her parents to Zanesville, where she spent her early childhood. In 1871 she came with the family to Newark and has since resided here.

Shortly after coming to Newark, she united with St. John's Evangelical church, being confirmed with a class of 32 persons, among whom was her future husband, Charles Graef. She was a faithful and consistent member of this church through the balance of her life and was active in its various departments until a year ago, when she became ill.

She was married to Mr. Graef on her 18th birthday anniversary, Sept. 2, 1884, and she leaves to mourn her death her husband, one son, Carl Graef, and three brothers, Edward, Albert and Charles Keinath, all of Newark. One brother and two sisters preceded her in death.

Mrs. Graef was a member of the Lady Macabees, the Royal Neighbors of America and of the various organizations of her church.

Mrs. Graef was a woman of exceptional personality and few women in the city had a larger circle of friends. During her illness her popularity was manifested by the numerous tokens of love and friendship sent to her home.

Funeral services will be held at the home Friday afternoon at 2 o'clock. Rev. Mr. Haller of St. John's church officiating. Interment at Cedar Hill cemetery.

MRS. ELIZABETH P. DUDLEY.
Mrs. Elizabeth P. Dudley, widow of the late Rev. A. S. Dudley, a former pastor of the Presbyterian church at Granville, died at her home in Granville Tuesday evening at 8:20 o'clock. Mrs. Dudley was born in Cincinnati, Dec. 14, 1843. She is survived by a son and three daughters, Mansfield, of Pittsburg; Mrs. G. E. Cottingham of Morrow, O.; Miss Edith, of New York City, and Miss Helen, of Granville. The funeral will be held at the home, in East Elm street, Granville, Thursday morning at 9 o'clock. The remains will be taken to Cincinnati, where interment will be made in Spring Grove cemetery.

MRS. LOTISA EBHART.
Word has been received in the city that Mrs. Ferdinand Ebhart, formerly Louise M. E. Ebhart, died suddenly at her home in Bay City, Mich., on Feb. 25. No details of the death were given.

FUNERAL OF FRANCES WARMAN.
The funeral of Miss Frances Warman, eldest daughter of Mr. and Mrs. Homer Warman, was held at the late home Tuesday afternoon at 2 o'clock. The deceased is survived by her father, mother, two sisters and brother, Helen, Bertha and Walter. Services were under auspices of the International Bible Students' Association, C. B. Shull of Columbus officiating. Interment in Cedar Hill cemetery.

CARD OF THANKS.
We desire to express our heartfelt thanks to our dear relatives, friends and neighbors—the teachers and schoolmates of Frances' local class of L. B. S. A. for the kindness and the beautiful floral offerings during the sickness and death of our dear daughter, Mr. and Mrs. Homer M. Warman and Children.

Banking Service

Can be measured in degrees. There are banks which just barely satisfy and there are others who give fairly good service, but give it unwillingly.

There are also banks, like this company, that offer every facility and accommodation in keeping with conservatism.

These grow, as we have grown — rapidly, surely, safely, because the growth is deserved.

Prompt and Efficient Attention Given to all Business intrusted to us

UNITED DOCTORS BEST DOCTORS SAYS OHIO MAN

John Baker, of Verona, Ohio, Tells How United Doctors Cured Him.

BOUGHT IN VAIN FOR CURE.

Had Rheumatism Fourteen Years and Formerly Spent a Lot of Money With Many Doctors.

The United Doctors are the best doctors I have ever dealt with, said Mr. John Baker of Verona, Ohio, in speaking of the United Doctors, who have their Newark Institute on the second floor of the Arcade building.

"I have had rheumatism fourteen years and have spent a great deal of money with a great many doctors during this time," continued Mr. Baker, "and got absolutely no relief until I went to the United Doctors. These specialists, in a remarkably short space of time, gave me such excellent results that I now tell the public my experience, not only in gratitude to the doctors but so that other sufferers like I used to be may be directed to their institute."

"I am now working every day in peace and comfort, which is something I have formerly been unable to do in a long time."

The above is but a sample of the work being done by the United Doctors, not only in their Ohio institutes but in their institutes all over the country.

There have been many inquiries from all over the east as to the exact location of the United Doctors from many who want to avoid long travel to obtain the United system of treatment.

The United Doctors Dayton, Ohio, Institute is at 118 West Fourth street; the Columbus, Ohio, Institute is at 27 North Third street; the Springfield, Ohio, Institute is in the Robbins building at the corner of High and Limestone streets; the Newark, Ohio, Institute in suites 39-49 Arcade building; the Wheeling, W. Va., Institute at 424 Twelfth street; the Trenton, N. J., Institute is at 28 South Broad street; the Johnstown, Pa., Institute in the Leader building, between Main and Lincoln streets.

MT. VERNON ADOPTS THE NEWARK PLAN

According to present plans, the High school faculty at Mt. Vernon will afford the parents of pupils an opportunity to see the classes in session within the next few weeks. A final session will be held, as was done in Newark, and parents will be invited to attend. Principal Wiggins of the Mt. Vernon school consulted with local instructors when here a week ago and was well pleased with the plan.

HARD FOOT CALLOUSES REMOVED QUICKLY

Anything on your feet that shouldn't be there—whether corns, callouses, or sore lumps—they can all be removed in short order by Putnam's Corn Extractor. Think of the pain you are saved when that sore corn goes. It is foolish to experiment with untried remedies—better use Putnam's Extractor and the work will be done quickly and without pain. Putnam's Extractor costs 50c per bottle, sold and recommended by druggists and W. A. Erman.

CHARLES W. MILLER LAWYER.

BIDS OPENED FOR SEATING NEW SCHOOLS

BOARD OF EDUCATION MAY TAKE ACTION TOWARD EQUIPPING ATHLETIC FIELD.

Bills Amounting to Over \$8000 Allowed at Tuesday Night's Meeting.

President Kibber called the regular meeting of the Board of Education to order Tuesday evening with members Rank, Dewey, Haight and Miller, answering to their names.

The minutes as read by Clerk Haight, were approved.

The following bills were read and ordered paid:

Dicken & Reinhold, plumbing	\$ 10.00
Licking Light & Power Co.	57.25
R. F. Collins, chemicals	3.00
Scott Paper Co., Phila.	6.25
Newark Natural Gas Co.	681.00
American Book Co.	1.50
Evans Supply Co.	2.30
H. L. Rexroth, insurance	\$2.50
Licking Creamery Co.	2.26
Licking Laundry Co.	4.21
Phil Vogelmeier	5.00
Newark Electrical Co.	37.31
Estimate No. 8, Dawson Construction Co. on S. Fifth St. building	1,088.80
Dawson Construction Co. Estimate No. 8, Grant St. Bldg.	1,792.85
Roedel Co., plumbing, Estimate No. 1	1,197.00
Showers & Taylor, Estimate No. 6, Stevens St. Bldg.	1,258.00
Boyce Heating & Ventilating Co., Estimate No. 2, on three buildings	1,620.00
Dobson, Evans Co., Columbus, supplies	\$7.00
Total	\$8,062.19

A communication was read from Showers & Taylor of Zanesville, O., calling attention to the incompleteness of the heating furnaces in the Stevens street building.

The clerk read his financial statement for February which was received and filed.

Superintendent Hawkins made a report that the air pump in the High school be repaired and Mr. Handel was authorized to repair same.

Professors Stinson and Millisor showed a plan of improving the athletic field at the corner of Eleventh and Church streets, showing two baseball diamonds, football field, tennis courts, grand stand, and other necessary accompaniments of a first class field. The two professors stated that they would remain here during the summer months, superintending the building of the grounds and take charge of the work, their salaries to go on just as usual, if the board wished to appropriate the money, the cost approximating \$2,500. The matter was taken under advisement by the board.

New bids for desks and seats for the new building were opened, as all bids submitted some time ago had been rejected.

Cleveland Seating Co.—F. O. B. Newark: 1 & 2, \$2.15; 3 & 4, \$2.00; 5 & 6, 1.90; Rears and fronts, \$1.70. Add 10 cents per seat screwed to floor ready for use.

American Seating Co.—F. O. B. Newark: 1 & 2, \$1.98; 3 & 4, \$1.88; 5 & 6, \$1.78; Rears and fronts, \$1.68. Add 10 cents for setting up.

L. A. Stares—F. O. B. Newark and delivered at school building: Nos. 1 & 2, \$2.12; 3 & 4, \$2.00; 5 & 6, \$1.88; Fronts and rears, \$1.75.

H. Andrews Co., Chicago—F. O. B. Newark: 1 & 2, \$2.02; 3 & 4, \$1.90; 5 & 6, \$1.79; all Fronts and Rears, \$1.68. Add 15 cents for setting up.

Canton School Supply Co., Chicago—F. O. B. Newark: 1 & 2, \$1.95; 3 & 4, \$1.85; 5 & 6, \$1.75; Rears and Fronts, \$1.65.

Peabody School Furniture Co., North Manchester, Ind.—F. O. B. Newark: 1 & 2, \$1.90; 3 & 4, \$1.82; 5 & 6, \$1.70; Rears and Fronts, \$1.60.

Sears, Roebuck Co., Chicago—Rear Desk, F. O. B. Newark: 1 & 2, \$1.71; 3 & 4, \$1.61; 5 & 6, \$1.51; Fronts and Rears, \$1.41.

Twenty Century Desk: 1 & 2, \$1.76; 3 & 4, \$1.66; 5 & 6, \$1.56; Fronts and Rears, \$1.46.

A telephone message at this point to Senator W. E. Miller announced that his wife had been taken suddenly ill and he and Mr. W. C. Rank, both members of the board, were compelled to leave, leaving the quorum and no action was taken.
